LOCATION.—The location of Indiana renders it especially desirable as a site for a Normal School. Situated near the mountains, and at an elevation of 1300 feet, it is removed entirely from cities, and has an atmosphere of great purity and healthfulness. Indiana is convenient of access from all parts of the country, being situated on a branch of the P. R. R., 77 miles from Pittsburgh.

GROUNDS.—The grounds cover over thirty acres, including campus, beautiful native oak grove, and athletic grounds. The grounds are beautified by landscape gardening.

BUILDINGS.—The buildings are large, convenient and thoroughly equipped; lighted with gas, heated with steam, every house supplied with an abundance of hot and cold water, steam laundry, steam cooking apparatus, free libraries and reading rooms, and well equipped laboratories.

EXPENSES.—Total expenses for a year of forty-two weeks, including tuition, board, furnished room, light, heat and washing, $200. Students, preparing to teach in the public schools of the State, receive an appropriation which reduces the annual expense to $176. Upon graduation, the State pays a further appropriation of $60 to all students who will agree to teach two full school terms in the State. This reduces the expenses of the senior year to $244.

For full particulars and information, address the Principal, Indiana, Pa.
